

Codan offers a range of 2110M Transceiver backpacks designed for durability, comfort, easy portability and ample storage for military communications on the move.

S O F T P A C K

Ultra lightweight and compact backpack for the 2110M Transceiver.

Two 4 litre side pockets and one 3.5 litre bottom pocket ensures that the transceiver and all accessories are contained in a neat and highly functional backpack, while still allowing room for personal items.

Consists of a comfortable harness with internal bracing, hip belt and sternum strap.

Material: Cordura
Standard colour: Black
Weight: 1.23 kg (2.71 lbs)

Softpack Backpack

E X T E R N A L F R A M E

Heavy duty backpack with adjustable semi-flexible contoured external frame as preferred by various professional and government organisations. Its modular design allows for additional loads of up to 50 kg to be attached.

Two 5 litre side pockets and one 3 litre bottom pocket for accessories and storage. Includes a front pocket to hold an A4 size

folder and the Getting Started Guide.

Ergonomic shoulder harness with ventilation panel ensures maximum comfort even during long treks.

Material: 1000 Denier bulked filament nylon, and co-polymer frame
Standard colours: Black, Olive/Tan, US Desert Camouflage, US Woodland Camouflage
Weight: 4.3 kg (9.48 lbs)

External Frame Backpack (US Desert Camouflage)
