

▶ Executive Armoured Vehicles

For protection and security of individuals who run the risk of being a ballistic target on the road, we offer an extensive line-up of personal armoured vehicles.

Luxury sedans, sport utilities, and minivans are outfitted with ballistic protective technology and deliver up to a Level V protection to their passengers while remaining virtually indistinguishable from standard factory models.

Executive protection vehicles have their doors, flooring and side panels shielded with ballistic steel, their windows protected with transparent armour, and their structural elements reinforced so their passengers can enjoy a high level of security. This line of vehicle provides the ideal solution for secure transport of high-ranking officials, dignitaries, escorts and persons travelling in potentially dangerous areas.

Range available:
